My Social Profiles

Work Experience

2022 - Present

Freelancer

Full Stack Developer

I'm working on a variety of projects to expand my expertise in many sectors.

2021 - 2022

Pi Tech Pvt Ltd.

Junior Android Developer

I worked on an app named "Chukul" that fundamentally analyzes stock as a junior android developer.

2018 - 2019

Brandlancer Global

Graphics Designer

I worked for an advertising agency as a junior graphics designer, where I was in charge of creating social media content.

Project Experience

Chukul

Junior Android Developer (Android)

Chukul is an advanced AI-based algorithm that aims to predict the trend of Nepal stock market.

PokeDex

Individual Project (Android)

PokeDex uses Hilt, Coroutines, Jetpack (ViewModel), and Jetpack Compose to illustrate current Android development using the MVVM framework.

Matcher

Individual Project (React)

Matcher is a card image matching game where the user can match a card with another card.

Keep Notes

Individual Project (React)

Keep Notes is a similar app to Notes which we use on a daily basis. It uses Json Server to add and delete the Notes for user.

Trading View Chart

Chukul System (Web & Android)

Implemented Light-weight chart as well as advance trading view chart for the "Chukul" system. Also, implemented light weight chart on android app. Added signal point, support resistance trend line as well as other indicators by default.

Social Media Backend

Individual Project (NodeJS)

User can send follow request, handle follow request and many more, using guest as well as own account.

JWT Auth

Individual Project (NodeJS)

Utilizes JWT Auth Token to register, login user and store user's token in cookie. Also, contains endpoint to logout user.

Student Verse

Android (Bachelor's Degree)

Android Head of a seven-person team for the project "Student-Verse," where I was in charge of all aspects of Android development, from design to testing.

Kotha Khali

React (Bachelor's Degree)

An Web application was created to advertise a landlord's vacant space. I completed the entire project, from design to coding to testing.
